

Materials Objective :

- Trend Identification
- Dow Theory Principals
- Market Movements : Primary, Secondary, Minor Movement
 - Multiple Timeframe

Technical Analysis

Metode mengevaluasi suatu pasar dengan cara menganalisa statistik yang telah dihasilkan oleh aktivitas pasar di masa lampau guna memprediksi pergerakan harga di masa mendatang serta memahami kondisi psikologi pasar.

Finding the
Trend

Finding the
Turning Point

Trend is a **Direction**

Price Move in a Trend

Bullish Trend

Bearish Trend

Price Structure

Price Structure

Bearish Trend

Price Structure

Charles Henry Dow
1851 - 1902

Charles Henry Dow developed the **Dow Theory** from his analysis of market price action in the late 19th Century. CHD, also create Dow Jones Industrial Average (DJIA) & Dow Jones Transportation Average (DJTA).

6 Principals of Dow Theory

1. Market Action Discount Everything.
2. Market Has Three Movements : Primary, Secondary, Minor.
3. Market Trends Has Three Phases.
4. Average Must Confirm.
5. Volume Must Confirm The Trend.
6. Trend is Continuation Until Definitive a Signal of Reversal.

MARKET ACTION DISCOUNT EVERYTHING

Market Action Discount Everything

What Determine the Price Movement?

Fundamentals :

- Monetary Policy
- Fiscal Policy
- Economic Growth
- Performance Financial

Politics :

- War
- International Treaty
- Trade War
- Election

Psychology :

- Hope
- Fear
- Panic
- Greed

Rumors :

- Interventions
- Corporate Action Issues
- Buyback Issues
- Insider Information

AVERAGE MUST CONFIRM EACH OTHER

Average Must Confirm Each Other

Intermarket Correlation

All markets move in a cycle and there are always relationships between one market to another market since all financial assets are linked in a cycle.

Validation Trend appear when the markets confirm each other.

- (1) USD/IDR to Composite Index
- (2) Commodity Price to Stocks
- (3) Stocks Index to Stocks

Intermarket Correlation provide an confirmation for potentially price movement and warn of potentials reversals.

Correlation USDIDR with Composite Index

MARKET HAS THREE MOVEMENTS

Market Has Three Movements

Primary Movement

- The Biggest Wave on a Price Movement.
- Create a new High in a Bullish Trend (Higher Peak) and new low in a Bearish Trend (Lower Low)
- Positive Correlation with a Major Trend.

Secondary Movement

- A counter-reaction movement from a major trend.
- Temporary Movement and Secondary Movement < Primary Movement by a Price and Time.
- In Bullish Trend, secondary movement is a downward movement and Bearish Trend is a upward movement.

Minor Movement

- Minor appear as a subdivision of the Primary Movement or Secondary Movement.
- Using for Entry and Exit the Market.

Primary & Secondary Movement : Bullish Trend

Primary & Secondary Movement : Bearish Trend

Multiple Timeframe help traders to create an entry/exit more precision on every position. There are no good or bad trading time frame, all the same!

Forecasting Timeframe

Stocks : Weekly Chart

Forex : Daily Chart or H4

Entry Timeframe

Stocks : Daily Chart or H1

Forex : H4 or m30

Entry (optional) Timeframe

Forex : m15

Forecasting Time Frame → State BULL or BEAR (no if word). Trend Analysis, Primary & Secondary Analysis (big capture).

Entry Timeframe → Entry/Exit the market! (Entry Technique).

END OF FIRST SESSION

APPLICATION SESSION

Step 1 : Application Tools

- Open www.investing.com
- Charts → Live Chart

Step 2 : Trend Analysis

- Weekly Chart
- Confirm the Price Movement & Coding
- Bullish Trend or Bearish Trend
- Primary Movement or Secondary Analysis

Step 3 : Looking for Entry

- Daily Chart or Hourly Chart
- Dynamic Support/Resistance
- Classic Support/Resistance

Step 4 : Analysis & Interpretation

- How many Primary/Secondary.
- Range of Primary Movement.
- How Many Minor Movement.

Step 5 : Stocklist

- Study Case (1) = BBRI (May 2018 – Present)
- Study Case (2) = ICBP (May 2018 – Present)
- Study Case (3) = BWPT (Feb 2017 – Present)

APPLICATION SESSION

Study Case 1 (BBRI May 2017 – Present)

- Major Timeframe (Weekly Chart)

Primary Movement = 3

Secondary Movement = 3

- Minor Timeframe (Daily Chart)

Primary Movement (1) = 5 minor movement

Primry Movement (2) = 13 minor movement
